Gauthier Noane

Engineering student · Digital Sciences (ENSEEIHT, Toulouse INP)

[email] · [phone] · Toulouse, France · github.com/gnoane · [LinkedIn]

PROFILE

Third-year undergraduate (L3) at ENSEEIHT in the Digital Sciences (SN) programme, seeking an internship in data management. Schooled in five countries across three continents, I am preparing an international VIE project in Scandinavia.

EDUCATION

2026 – present	ENSEEIHT – Toulouse INP, engineering degree, Digital Sciences (SN)
2025 – 2026	CPGE MPI (Mathematics, Physics, Computer Science), Lycée Descartes, Tours
2024 – 2025	CPGE MP2I (Mathematics, Physics, Engineering and Computer Science), Lycée Descartes, Tours
2024	French Baccalauréat, with highest honours (mention Très Bien)

PROJECTS

- **TIPE – Helmholtz resonator (2025 – 2026)**: experimental study of the acoustic resonance of a cavity, carried out independently from measurement protocol to analysis; measurements compared with a simplified physical model.
- **Winning strategy for Othello**: programmed a game strategy to beat the computer at Othello.
- **grep in OCaml**: reimplementation of the grep command in OCaml.
- **Number-guessing game in Ada (2026)**: individual development of a guessing game based on binary search.

ENGAGEMENT

- **Class representative (tutorial group), ENSEEIHT (2026 – present)**: spokesperson for my group with the teaching staff.
- **Candidate for president of a student union list, SN programme (2026)**

SKILLS

- **Programming**: C, OCaml, Ada
- **Data and computing**: SQL, Matlab
- **Scientific writing**: LaTeX
- **Languages**: French (native), English (B2), Spanish (A2)

INTERNATIONAL AND INTERESTS

- Schooled in Ethiopia, Benin, Lebanon, Italy and the United Arab Emirates
- Climbing (grade 6b, 2 years), chess (4 years), Brazilian jiu-jitsu (beginner)
